

Chadburn Green*, 4.2 km

This is a nice loop to walk. It's mostly a double track through the forest. There are a few hills but none too hard. It's well marked by coloured wooden boards on trees. This loop is unusual as most intersections have the coloured signs, usually within 20 m of the intersection.

** In winter this is a ski trail.*

Trailhead: Cross the bridge into Riverdale and follow Lewes Blvd to the round-about. Take first exit from the round-about onto Nisutlin Dr. Turn left onto Chadburn Lake Road (just before the Fish Ladder).

Drive about 4.0 km along the Chadburn Lake Road to a small trailhead parking lot on the right hand side of the road. It's about 375 m past the day use/boat launch on your right.

1: At the south side of the parking lot, nestled up against the road is the unmarked **Chadburn Green**. Follow it and it'll soon cross **Chadburn Red**.

2: From the intersection with **Chadburn Red**, the trail is like an old country buggy track.

#3: This side trail is almost the only unmarked crossing.

4: When you come out on a small ridge there'll be a number of braided pieces of trail — follow the **Chadburn Green** signs as you cross **Chadburn Yellow**. (better description coming)

5: After 275 m you'll again cross the **Chadburn Yellow** and head directly to **Chadburn Red**.

6: After crossing the **Chadburn Red**, you'll be at the Chadburn Lake Road. Cross and continue following on the trail across the road. Soon the **Chadburn Green** signs will appear to confirm your position.

7: Just stay on Green!

8: Take either Green. Both rejoin just ahead.
